## Cómo instalar los Downlights Monet

Los downlights Monet pueden instalarse de forma sencilla en superficie o empotrados.

### **ANTES DE COMENZAR LA INSTALACIÓN ASEGÚRESE DE QUE LA LUZ ESTÉ DESCONECTADA**

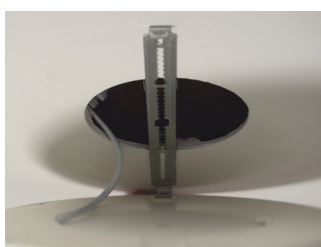

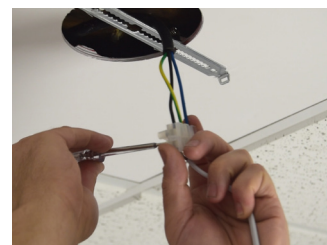

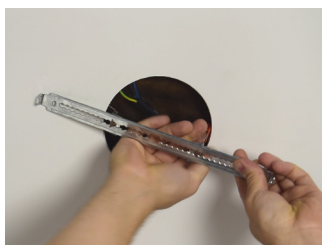

#### Opción 1: Instalación en superficie con el sistema Clip-ON

1. Atornille el soporte metálico al techo.
2. Conecte el downlight al cable de la luz.
3. Empuje el cuerpo del downlight hacia el soporte hasta que escuche un CLICK.
4. Encienda la luz y ¡listo!

#### Opción 2: Instalación empotrable con muelles deslizables

1. Instale los muelles deslizables en el soporte metálico.
2. Fije el sistema al orificio del techo. No importa el tamaño de este ya que, gracias a sus muelles deslizables, podrá ajustar las pinzas de sujeción al diámetro que desee.
3. Conecte el downlight al cable de la luz.
4. Empuje el cuerpo del downlight hacia el soporte hasta que escuche un CLICK.
5. Encienda la luz y ¡listo!

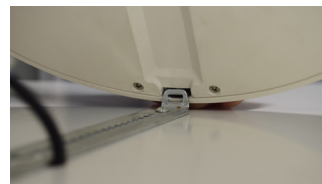

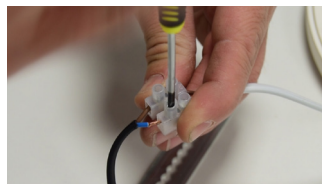

## How to install the Downlight Monet Series

The downlight Monet Series can be easily surface installed or recessed.

**BEFORE STARTING THE INSTALLATION MAKE SURE THE LIGHT IS DISCONNECTED**

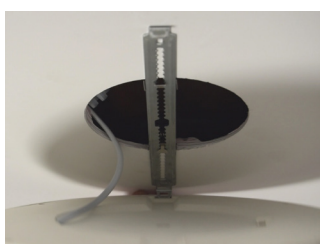

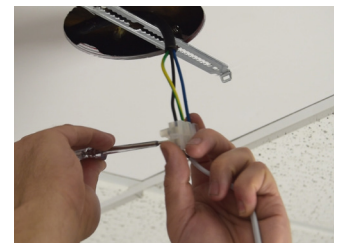

### 1st Option: Surface installation with Clip-On system

1. Screw the metal support to the ceiling as the photo below.
2. Connect the Downlight LED to the light cable.
3. Push the body of the downlight towards the metal support until you hear 'CLICK'
4. Turn on the light and ready!

### 2nd Option: Recessed installation with brackets

1. Install the sliding brackets into the metal support.
2. Fix the metal support with the sliding brackets with the ceiling hole as the photo below. It does not matter the size of the hole thanks to the sliding brackets who can be fixed at any diameter you want.
3. Connect the Downlight LED to the light cable.
4. Push the body of the downlight towards the metal support until you hear 'CLICK'
5. Turn on the light and ready!

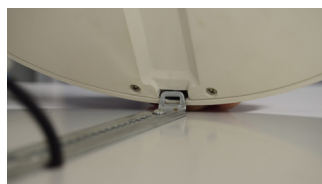

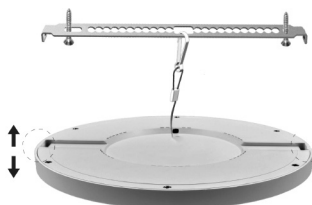

## Comment installer les Downlights Monet

Les downlights Monet peuvent être facilement installés en surface ou encastrés.

**AVANT DE COMMENCER L'INSTALLATION, ASSUREZ-VOUS QUE LA LUMIÈRE EST DÉBRANCHÉE**

### Option 1: Installation en surface avec le système Clip-ON

1. Vissez le support métallique au plafond
2. Connectez le downlight au câble d'électricité.
3. Poussez le corps du downlight vers le support jusqu'à ce que vous entendiez un CLIC.
4. Allumez la lumière. Et voilà !

### Option 2: installation encastrée avec des ressorts coulissants.

1. Installez les ressorts coulissants dans le support métallique.
2. Fixez le système au trou dans le plafond. La taille du trou n'a pas d'importance puisque, grâce à ses ressorts coulissants, vous pouvez ajuster la pince de fixation au diamètre que vous souhaitez.
3. Connectez le downlight au câble d'électricité.
4. Poussez le corps du downlight vers le support jusqu'à ce que vous entendiez un CLIC.
5. Allumez la lumière. Et voilà !
